AC 220V 120W Automatic Swinging machine Reciprocating motor Variable for Spraying Life testing Craft phone exhibition DIY engine

Item specifics Certification:CCC,CE AC Voltage:208-230 / 240 V Output Power:120 W Efficiency:IE 3 Type:Induction Motor Frequency:50HZ/60HZ Protect Feature:Drip-proof Phase:Single-phase Revolve Angle (degree) :33, 60, 90 "Force at Rod's Top (Kg)":16.5 6.75 4.5 3 2.3 1.5 1 Speed adjustable (variable) ?:"Yes (Need a AC US/UX controller)" Speed (n/min):9 22 33 67 90 135 180 Net Weight:7.7 KG Dimension (mm):210x270x160 Usage 1:Shale shaker, Vibrating screen, Vibration screen, Incense machine Usage 2:Squirt machine, Spraying Machine, Pellet machine, Particle-making Useage 3:Industry, Machine, DIY Design, Experiment

AC 220V 120W Automatic Swinging machine Reciprocating motor Variable for Spraying Life testing Craft phone exhibition DIY engine

This item is out of stock, customized need 1-3 days, thanks for your comprehend! Notice: Please consider carefully before order. Because this is customized motor, we should process this motor, if you cancel order or change model, you should compensate our loss.

Package including: 1x Swinging machine (AC 220V 120W). 1x US5120 120W AC speed controller. (If you don't need speed controller, contact us to minus price)

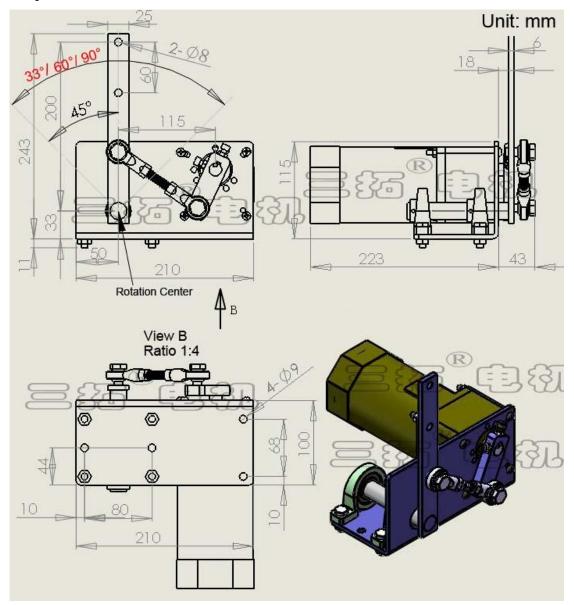

Specifications of the product

Please specify the Speed and Angle you need when you making an order. Speed: 9 n/min, 22 n/min, 33 n/min, 67 n/min, 90 n/min, 135 n/min, 180 n/min. (This is the maximum speed, you can controller speed from 0 RPM to maximum speed.) Angle: 33 degrees, 60 degrees, 90 degrees.

(Please don't forget to leave a message to tell us which Angle is needed), or we will ship 33 degrees angle by default.

Drawing and Cartoon

Characteristic -- please must read following sentences before purchase

-This Linkage Mechanism is an automatic constantly reciprocating linear actuator motor, which frequency is variable. -This machine output in a rod, the speed of rod is Non-uniform. If require speed uniform please don't bid.

-This machine is Non-standard manual made production, the surface is rough. If require surface precise please don't bid.

-The speed faster, the noise louder. If require quietly, please be careful before bid.

-Due to rotating lump is affected by gravity, the machine go and back speed is different.
