

## AC 220V Motor RF Wireless Remote Control Switch System,315MHZ UP&DOWN Motor reversing controller

### Delivery:

1 x receiver

1 x transmitter (with battery)

It is a learning code wireless remote control switch (receiver),the output way /working way can be change as you like ,it is easy to match the transmitter .

The wireless RF remote control, no direction, the signal can pass through walls.

Application:

AC 220V motor ,220VRemote control electric curtain.

### 1.Transmitter

Channel: 3CH

Remote Control Distance: 10-50m

Encode: 2262 : 2264 : 1527

Size: 120mm x 40mm x 16mm

Power Supply: 1 x 23A-12V battery

Certification:CCC

Item Type:Switches

Switch Type:Remote Control

### 2.receive :

Decode: SCM program

Power Supply (Operating Voltage): AC 220V

Relays: 10A/250V AC, 10A/125V AC, 10A/30V DC, 10A/28V DC

sensitivity:-105 dBm
