

AC110V 220V 250V 2CH 10A RF drahtloser Fernschalter drahtloser heller Schalter + 1/2 Knopf Goldene drahtlose Wand-Fernbedienung

Item specifics

Item Type:Switches

Warranty:1 year

Remote Distance:20-200M

Features:high quality

Certification:CCC

Switch Type:Remote Control

Material:Plastic

Max. Current:10A

Max. Voltage:110V-250V

Operating Temperature:-10°C~+60°C

Encoding type:Learning Code

output way:self lock

Frequency:315MHZ

PCB size:65*32*23mm

Battery:12V 27A

Working model 1:Power on lighting mode

Working model 2:Power on not lighting mode

Product Description

Model Number : X37

1.Working Voltage: AC110V-250V

2.Max Load:10A Relay, Resistive load \leq 8A, Inductive load \leq 3A

3.Channel: 1CH

4.Working Frequency : 315MHZ

Receiver sensitivity : -105Db

Working temperature : -10°C - +60°C

Output way : Toggle

Code type: Learning code Add Controller by the Learning Button on the receiver

Output State

Toggle-----Press transmitter button for 1 time , the receiver relay is ON, press button again, the receiver relay A is OFF,

Learning Method:

Input AC220V for the Receiver .Press the Learning Button until the Led indicator flash 2 times. Then press transmitter, the Led indicator flash 1 times, it mean learning successfully.

Clearing Code

Keeping press the Learning Button on the receiver until the LED indicator flash 4 times, it mean the code have been cleared successfully.

Power on lighting mode: Press the learning button on the receiver, until the indicator flashes 10 times, the receiver is modified lighting ON mode. After setting up the lighting ON, you need to learn the remote control again .

Transmitter :

Working Voltage : DC12V 27A Battery not included

Working Frequency: 315Mhz

IC Chip : 1527 IC Chip

Color : Champagne Gold

Input 110-250V

Learning key

Output 110-250V
