

Remote-Parameter
Code: Fixed Code
Frequenz: 868MHz
Arbeitsspannung: DC 2.4-3.6V
Arbeitsstrom: 17mA
Ruhestrom <1uA
Modulation: FSK
Arbeitstemperatur: -20~70°C

Strong/Sturdy

Dust-proof
Drop-proof
Waterproof

TOUCH BUTTON
SIMPLE AND EASY TO USE

Stronger Anti-interference

The FSK signal is
combined with the
carrier, and other signals
cannot be integrated.

TOUCH BUTTON
SIMPLE AND EASY TO USE

Wear-resistant Buttons

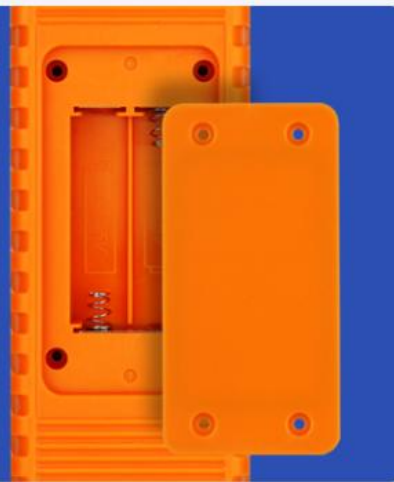

The surface of the inscribed characters is covered with hard glue.

TOUCH BUTTON
SIMPLE AND EASY TO USE

Waterproof Battery Compartment

Built-in rubber sealing ring in the cover.

TOUCH BUTTON
SIMPLE AND EASY TO USE

Product Introduction

FSK high-power industrial control suit series adopts FSK communication mode controller, which has the characteristics of strong data transmission stability and high receiving sensitivity, high data transmission rate, no motor interference, etc. The program is encrypted with rolling code, which has strong confidentiality and more reliable security performance. The product has a large output power, which can be applied to the control of high-power products.
